

Take a Walk in our Garden

This is the most popular tree kids hang out under because of the shade.

Over the years this pine tree has grown the most.

Kids really enjoy the shade from the trees on a hot day.

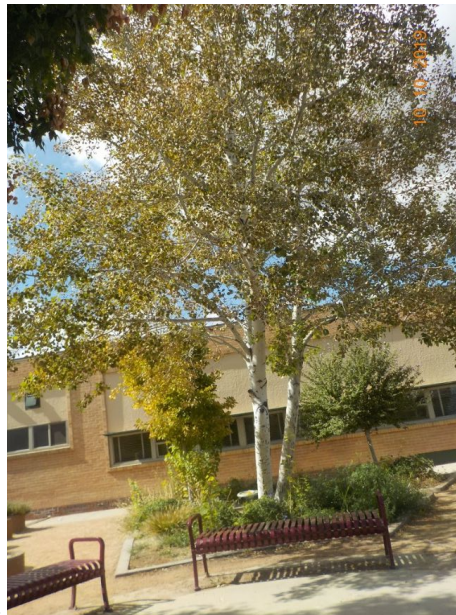

The sunflowers were a favorite because they towered over the kids.

The rose of sharon is one tree that caught the students eyes.

You can also view many different colors and shapes of flowers in the garden.

This is the one and only aspen in our garden.
